13. DISPOSAL CONSIDERATIONS

CONTAMINATED PACKAGING:

WASTE FROM RESIDUES/UNUSED PRODUCTS:

Do not allow to enter drains or watercourses or dispose of where ground or surface waters may be affected.

Wastes, including emptied aerosols, are controlled wastes and should be disposed of in accordance with regulations made under the Control of Pollution Act. Using the information provided in this safety data sheet, advice should be obtained from the relevant environment agency whether the special waste regulations apply.

14. TRANSPORT INFORMATION

UN NUMBER: SHIPPING NAME: Aerosols

HAZARD CLASS: 2.1 (For Sea Transport). Classification code 5f

EmS: F-D. S-U CLASS (LQ): LABELLÌNG: 2.1

15. REGULATORY INFORMATION

SYMBOLS:

R-PHRASE(S): R12 Extremely flammable

R36

R52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment

R66 Repeated exposure may cause skin dryness or cracking R67

Vapours may cause drowsiness and dizziness

S-PHRASE(S): S2 Keep out of the reach of children

> S9 Keep container in a well ventilated place

S16 Keep away from sources of ignition - no smoking

S23 Do not breathe gas/fumes/vapour/spray

S29/35 Do not empty into drains; dispose of this material and its container in a safe way

Wear suitable protective clothing

S46 If swallowed, seek medical advice immediately and show this container or label

S51 Use only in well ventilated areas

No chemical safety assessments have been carried out for any of the substances used in this preparation.

16. OTHER INFORMATION

USES ADVISED AGAINST:

The product should not be used for any purposes other than its intended use. Handling, storage and conditions to avoid instructions must be followed at all times.

The information contained in this safety data sheet is provided in accordance with the requirements of the Chemical (Hazard Information and Packaging) Regulations. The information we have provided is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal and release and is not considered a warranty or quality specification. The information relates only to the material designated and may not be valid for such material used in combination any other materials unless specified in the text.

EU regulation 1907/2006/EEC - (REACH)

1. IDENTIFICATION OF SUBSTANCE/PREPARATION AND THE COMPANY/UNDERTAKING

PRODUCT NAME: LINEMARKER

USE Open system operated by non-trained consumer.

APPLICATION/CONDITIONS: Linemarking Spray Paint.

YORK SURVEY SUPPLY CENTRE LTD. SUPPLIER:

Prospect House, George Cayley Drive, Clifton Moor, York, YO30 4XE: United Kingdom

2. HAZARDS IDENTIFICATION

MOST IMPORTANT HAZARDS: Harmful to aquatic environment. Vapours may cause drowsiness and dizziness. Extremely

SPECIFIC HAZARDS: Irritating to eyes. Repeated exposure may cause skin dryness and cracking.

3. COMPOSITION/INFORMATION ON INGREDIENTS

IDENTIFICATION OF THE PREPARATION: A mixture of resins, pigments, mineral extenders, additives, organic solvents and

organic gases.

CHEMICAL NAME CLASS REGISTRATION-No CAS-No. FC-No WEIGHT R10 Xn; R37 R65 R66 Mixed Aromatic 64742-95-6 649-356-00-4 10-15% Hydrocarhone R67 N: R51/53 2-Butoxyethanol 111-76-2 603-014-00-0 Xn; R20/21/22 Xi; 5-10% R36/38 1-Methoxy-2-Propanol 107-98-2 603-064-00-3 R10 5-10% Propan-2-one 67-64-1 200-662-2 R11, R36, R66, R67 40-60% Butane 106-97-8 203-448-7 F+; R12 10-30% 200-827-9 F+: R12 10-30% Propane 74-98-6

VOC Content - 55a/L - 58a/L Contains no known PBTs or vPvBs

4. FIRST AID MEASURES

GENERAL ADVICE: In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an

INHALATION: Remove to fresh air, keep the patient warm and at rest. If breathing is irregular or stopped, administer artificial

respiration. Give nothing by mouth. If unconscious, place in recovery position and seek medical advice.

Do NOT use high pressure inert gas or water jets.

SKIN CONTACT: Remove contaminated clothing immediately and wash affected skin with soap and water. DO NOT use

solvents or thinners as skin cleaning agents.

EYE CONTACT: Contact lenses should be removed. Promptly wash eyes with lots of water while lifting the eyelids. Continue to

rinse for at least 15 minutes and get medical attention.

INGESTION: If swallowed, seek medical advice immediately and show this container or label. Do not induce vomiting.

5. FIRE-FIGHTING MEASURES

SUITABLE EXTINGUISHING MEDIA:

EXTINGUISHING MEDIA WHICH MUST NOT

BE USED FOR SAFETY REASONS:

SPECIFIC HAZARDS:

Fire may produce dense black smoke containing hazardous combustion products (see heading 10). Decomposition products may be a hazard to health. Do not allow run-off from fire fighting to enter drains or watercourses.

Recommended use: Alcohol resistant foam, carbon dioxide (CO2), dry powder,

water spray. Do not use water iet. Cool containers with spray water.

In the event of fire, wear self-contained breathing apparatus.

SPECIAL PROTECTIVE EQUIPMENT FOR FIREFIGHTERS:

6. ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS: Remove all sources of ignition. Ensure adequate ventilation. Evacuate personnel to safe areas.

Avoid breathing vapours. Refer to protective measures listed in sections 7 and 8.

ENVIRONMENTAL PRECAUTIONS: DO NOT allow to enter drains or watercourses. If the product enters drains or sewers, the local

water company should be informed immediately. In the case of contamination of streams, rivers or lakes, inform the relevant environment Agency. Vapours are heavier than air and may spread

along floors. Vapours may form an explosive mixture with air.

METHODS FOR CLEANING UP: Contain and collect spillage with non-combustible absorbent materials, (e.g. sand, earth,

vermiculite, diatomaceous earth) and place in a suitable container for disposal in accordance with the waste regulations (see section 13). Clean the spill area, preferably with a detergent.

Avoid the use of solvents.

7. HANDLING AND STORAGE

HANDLING: Keep the aerosol in a cool, dry place. Exclude sources of heat, sparks and open flame. Do not use sparking tools around aerosols. Avoid skin and eve contact, Avoid inhalation of vapour and spray mist. For personal protection, see section 8. Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentrations higher than the occupational exposure limits. Never apply pressure to the aerosol, the aerosol is a pressurised object and may explode

if pressure is applied.

GENERAL: The accumulation of vapours in an enclosed area may result in spontaneous combustion, use only in well ventilated areas. Use responsibly and in the correct manner. Wear the appropriate personal protective equipment, as outlined in section 8. STORAGE: Observe the label precautions. Store between 5 and 25°C in a dry, well ventilated place away from sources of heat, ignition

and direct sunlight. No smoking. Store separately from oxidising agents and strongly alkaline and strongly acidic materials.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

CHEMICAL NAME 8hr TWA(1) Type(4)(3) Mixed Aromatic Hydrocarbons 25ppm SUP 50mam⁻³ 2-Butoxyethanol WEL Sk Bmgv EH40 25ppm 50ppm 1-Methoxy-2-Propanol 100ppm 150ppm WEL Sk 375mgm⁻³ 560mgm⁻³ 3620mgm⁻³ 1810mgm⁻³ WEL

(1) Long term exposure limits - 8hr time weighted average (2) Short term exposure limit - 15 minute reference period

(3) "Sk" indicates a risk of absorption through the skin. "Bmgv" indicates a biological monitoring guidance value.

(4) "WEL" indicates a Workplace Exposure Limit. WELs are taken from the current version of EH40 except those marked "SUP" which are assigned by the supplier of

ENGINEERING MEASURES: Provide adequate ventilation. All PPE used to control exposure to hazardous substances must

be selected to meet the requirements of the COSHH regulations.

PERSONAL PROTECTION EQUIPMENT:

RESPIRATORY PROTECTION: If exposure to hazardous substances identified cannot be controlled by the provision of local

exhaust ventilation and good general extraction, suitable respiratory protective equipment should

HAND PROTECTION: When skin exposure may occur, advice should be sought from glove suppliers on appropriate

types and usage times for this product. The instructions and information provided by the glove

supplier on use, storage, maintenance and replacement must be followed.

Barrier creams may help to protect exposed areas of skin, but are not substitutes for full physical

protection. They should not be applied once exposure has occurred.

EYE PROTECTION: Eye protection designed to protect against liquid splashes should be worn

SKIN & BODY PROTECTION: Grossly contaminated clothing should be removed and the skin washed with soap and water or a

proprietary skin cleaner.

9. PHYSICAL AND CHEMICAL PROPERTIES

FORM: Aerosol

FLASHPOINT: Not known for blend

COLOUR: Various ODOUR: Aromatic

10. STABILITY AND REACTIVITY

STABILITY Stable under the recommended storage and handling conditions (see section 7).

CONDITIONS TO AVOID: Applying heat or pressure to the aerosol may result in explosion and fire. Naked

flames, smoking, wet and damp storage conditions and mishandling may also

result in explosion and fire.

MATERIALS TO AVOID: Keep away from oxidising agents, strongly alkaline and strongly acidic materials in

order to avoid exothermic reactions.

HAZARDOUS DECOMPOSITION PRODUCTS: In a fire, hazardous decomposition products such as smoke, carbon monoxide,

carbon dioxide and oxides of nitrogen may be produced.

11. TOXICOLOGICAL INFORMATION

ACUTE TOXICITY: Splashes in the eve may cause irritation and reversible local damage.

LOCAL EFFECTS: Repeated or prolonged contact with the product may lead to removal of natural fats from the skin, resulting in

> non-allergic contact dermatitis and absorption through the skin. Exposure to organic solvent vapours may result in adverse health effects such as irritation of the mucous membrane and the respiratory system and adverse effects on the renal and central nervous systems. Ingestion causes irritation of upper respiratory

system and gastrointestinal disturbance.

SENSITIZATION: CHRONIC TOXICITY: LONG TERM TOXICITY:

Contains no known category 1 or 2 carcinogens, mutagens or reproductive toxicants.

12. ECOLOGICAL INFORMATION

MOBILITY:

PERSISTENCE AND DEGRADABILITY:

BIOACCUMULATION:

ECOTOXICITY EFFECTS: No data is available on the product itself. Harmful to aquatic organisms, may cause long-term

adverse effects in the aquatic environment.

This product should not be allowed to enter drains or watercourses or be deposited where it can affect ground or surface waters. The Air Pollution Control requirements of regulations made

under the Environmental Protection Act may apply to the use of this product.

ENDOCRINE DISRUPTING POTENTIAL:

Contains no known substances that require a chemical safety report.
