500W Halogen Work Light

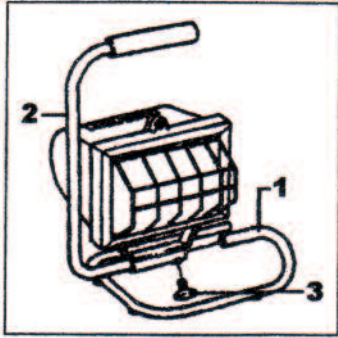

Code: 53500

Operating Instructions

IMPORTANT: READ THIS INFORMATION BEFORE USE!

Assembly Instructions

Do not assemble while plugged into power.

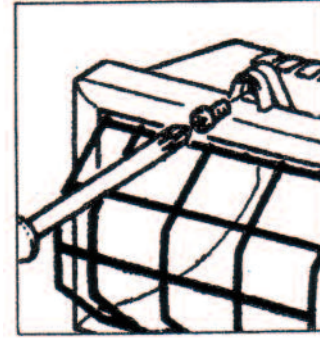

1. Insert stand base (1) into other end of tube. Use the stand handle (2) to position the lamp to the desired angle. Insert and tighten angle adjustment knob (3)

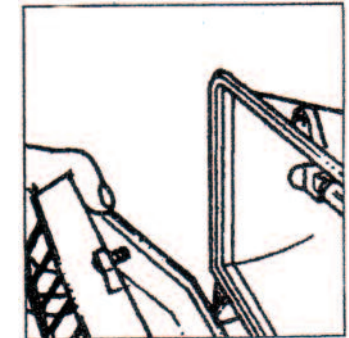

2. Lamp angle may be altered simply by loosening the angle adjustment knob (3) moving the stand handle to bring the lamp to the desired angle, then tightening the angle fixing knob

Inserting or Replacing Halogen Lamp

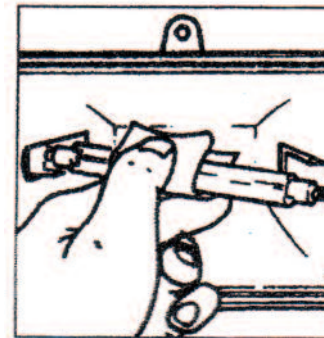

Important: Ensure unit is disconnected from power point. Allow time for unit to cool before handling.

1. Unscrew retaining screw on top of lamp. This will release the protective grid, front surround and glass faceplate.

2. Lower front surround down. It will be retained by the hinges

3. To insert halogen tube: unwrap globe, taking care your fingers do not touch the tube. Use wrapping to handle the tube. Push one end of tube into either of the spring-loaded sockets. Locate other end on other socket, and release.

4. Carefully replace front surround, making sure it is correctly positioned. Screw up tightly.
